Sensory Bag Agreement

EIN: 33-4735948

We, Shawn and Elizabeth Snaith, owners of Snaith Family ASD Sensory Project, believe that we should not profit from these sensory bags. We started this project as we saw the need to have training and sensory equipment for healthcare providers especially First Responders. We understand that the items cost money and we will only accept payment if a Service is able to and will only charge for what it costs to make a bag each, not to make a profit off each bag.

To make one bag, it costs \$35. If a service is unable to afford the amount to cover each bag, we as an organization, will donate the bags to the service, if it means that the community will benefit from the bags and the items. If you choose to do the initial purchase of the bags and again, no obligation, we can accept credit cards or you can go to www.snaithfamilyasd.com and follow these instructions:

-Simply go to the **Sensory Bag** tab and click on **Shop Now** under the Original Sensory Bag section. This will be where you will enter how many bags you wish to purchase and be able to purchase them online with Square.

Restocking items

-When items are needed to restock the bags, simply go to our website, www.snaithfamilyasd.com. Go to the **Sensory Bag** section and fill out the restock request form. This will email us what all you need and we will get the items to you, **free of charge** with no questions asked.

Each service uses a code--The Service's Zipcode and ASDKIT together (ZipcodeASDKIT) all one word in the restock order form to request the Supplies. This helps us to make sure a random person that is not with a service tries to order supplies for free.

Torn or Ripped Bags

-If the bags become torn or ripped, please let us know and we will replace the bag, with a new bag.

We want to thank you so much from the bottom of our hearts, for all you do for the community and your support of our organization! We promise to take care of your service as long as there is a need for the bags and it benefits your Autistic and Sensory Community!
